

The Scholarship Program at Lamar Institute of Technology awards scholarships each year.

These scholarships are awarded to graduating high school seniors, currently enrolled students and transfer students. They range in value from \$200 to \$5,000. Awarding of scholarships is primarily based on academic achievement. The student's displayed leadership abilities and participation in extra curricular activities are used as secondary factors in selection.

In order to complete the application process for the Scholarship Program, please complete and return this application with a **copy of your most recent academic transcript and other required documentation..** Priority is given to applications received by February 15, 2004.

Students are encouraged to seek additional scholarship opportunities through the programs at LIT as well as local civic organizations, churches and parent-teacher organizations. Listings of other available scholarships may be obtained from the Student Financial Aid Office or your high school counselor.
